Billing Information

Certain insurance companies require pre-authorization before accessing physical therapy services. Please ensure you have obtained pre-authorization, if required, before beginning your course of treatment. If not obtained you will be responsible for the visit.

As an accomodation to our patients, claim forms will be sent directly to your insurance provider. Please note that physical therapy coverage varies greatly from one insurance carrier to another. Please verify your insurance coverage before or at your initial visit.

All co-payments are due at the time of your appointment.

We DO NOT accept third party claims. You, the patient, not your legal counsel, are responsible for all payments.

I understand that I am personally responsible for all charges not covered by my insurance.
